THE VOCAL RAINBOW

With Caroline Boersma and Kevin Crawford

20/21 APRIL

TEATRO NUNC CASTIGLION FIORENTINO

Discover the COLOURS OF THE VOICE and ENJOY THE VOICE FREESTYLE

An investigation of THE COLOURS OF THE VOICE: from the softest tones to strident sounds, from deep warm syllables to light airy notes. THE VOICE FREESTYLE invites us to enter into a zone of creative sound, following the will o' the wisp twists and turns of our own voices and then mixing them with a partner's voice, reaching out to a group of voices. The Cello with its own palette of colour and texture accompanies and, like the Pied Piper, leads us in our explorations.

This two-day workshop can either be followed in its entirety or for one day only as each day is fully independent and themed in a separate but complimentary way.
